Guide to Student Assessment, Achievement, and Learning

Teachers in Medicine Hat Public School Division are focused on supporting our students to be independent and successful learners. As part of this work, teachers in all our schools are engaged in developing and using assessment practices that assess students based on outcomes. Outcomes describe what your child is expected to know and do according to the Alberta Education Programs of Study.

Students need to know and understand the outcomes they need to achieve, what they are doing to achieve them, and what they will do once they have achieved them. This is the work teachers do together with students in the classroom. As students demonstrate their learning and achievement, teachers assess progress and, at key points during the year, formally assess student achievement on those outcomes. There should be regular communication with students and parents about the learning and levels of achievement throughout the year. One of the communication tools parents are used to is a progress report or report card. In elementary schools, these are printed documents sent home to parents. In grades 7 through 12, these are often reflected online on PowerSchool and/or printed as formal reports and sent home.

ACTIONS TO SUPPORT STUDENT SUCCESS

You can support your child's learning and success by:

- Knowing you are an important part of the team
- Creating routines at home that help your child be prepared for learning every day
- Making sure your child attends school regularly and on time
- Staying informed and connected to the school – reading the information sent home or communicated through social media
- Asking questions of your child's teacher if you're unsure about where your child is at
- Attending school events and parent-student-teacher interviews/conferences
- Asking your child's question about their learning and helping them recognize the actions they are taking towards improvement and learning.

Teachers will help your child's learning and success by:

- Providing programming that is suitable for your child
- Providing multiple opportunities and ways for students to show what they know and can do
- Making a plan with students who may have missed important assessments and activities
- Communicating in student friendly language, expectations and how student work will be graded/marked
- Keeping detailed evidence of your child's achievement and challenges
- Regularly communicating with you about how your child is doing and the learning occurring in the classroom and/or course
- Using Universal Screening Tools for reading and math to plan for instruction and learning.

Students have a responsibility for their own learning and are expected to:

- Attend school every day and on time
- Be participants in classroom and school activities
- Ask questions
- Demonstrate their learning by finishing assignments to the best of their ability
- Let the teacher know when they need help
- Take advantage of chances offered to revise or redo assignments or tests so they can show growth in their knowledge or skills

HOW DO WE DETERMINE STUDENT ACHIEVEMENT?

At Medicine Hat Public School Division, we determine grades/marks in a variety of ways.

Formative Assessments

Over the course of the year, your child should have many opportunities to develop and practice key skills and increase what they know. These opportunities show your child's teacher how they are doing, what their strengths are, and where they can improve. This is called formative assessment

Summative Assessments

Throughout the school year, your child will have opportunities to demonstrate what they have learned by an identified point in time. These assessments are marked and are put together with other evidence. Teacher then make decisions using the work your child has completed (products), what they've seen your child do (observations), and discussions they've had with your child (conversations), to determine a mark on the report card.

Missing or Incomplete Student Work

It is important that teachers communicate with parents/guardians regularly and in a timely fashion about missing or incomplete student work. At Crestwood School, if a pattern of missing or incomplete student work arises, teachers will connect with parents/guardians through the school agenda, e-mail, or phone calls. A programming planning meeting may be arranged with the teacher and/or school-based team to collaborate and develop strategies for completed work and improved learning. Often, missing or incomplete work is an outcome of other concerns and together we can identify the challenges your child may be facing.

It is important that students absent from school and missing assignments and/or summative assessments, complete these as soon as possible from the original assessment date unless otherwise determined by the teacher. When students miss a significant amount of time due to vacation, they are missing valuable learning that cannot be replicated through a worksheet package. Classroom discussion, problem-solving, and collaborative opportunities with their peers and other unique learning opportunities are missed. If your child is absent due to vacation, we request families contact their child's teacher to identify the key concepts that will be taught while they are away. We appreciate parents/guardian's support with their child's learning of missed outcomes.

SCHOOL ASSESSMENT & REPORTING COMMUNICATION PLAN

Our school uses many tools and ways to make sure you are informed during the school year. Please make sure you review information communicated to you about your child.

Reporting Terms: Crestwood School reports student progress in the three terms identified below.

TERMS	DATES	COMMUNICATION TYPE & DATE
Term 1	September 4, 2019 – November 21, 2019	Meet the Teacher Night: Tuesday, September 17, 2019 Thursday, November 20 & Friday, November 21 - Early Years Evaluation Report (Kindergarten students only) Grade 1 – 6 Report Cards are sent home on Friday, November 21, 2019 Parent Teacher Interviews – Wednesday, November 27 & Thursday, November 28
Term 2	November 25, 2019 – March 27, 2020	Thursday, March 26 & Friday, March 27 - Kindergarten Evaluation Report (Kindergarten students only) Grade 1 – 6 Report Cards are sent home on Friday, March 27, 2019 Student-Led Conferences: Wednesday, April 1 & Thursday, April 2
Term 3	March 30, 2020 – June 26, 2020	Thursday, June 25 & Friday, June 26 - Early Years Evaluation Report (Kindergarten students only) Grade 1 – 6 Report Cards are sent home on Friday, June 26, 2020

Ongoing Communication:

It is important that you know what your child is learning about and their achievement along the way. To support this, our teachers commit to:

Using student agendas that are provided to our grade one to six students to promote ongoing communication. We encourage families to check the student agenda on a daily basis and to follow-up with any questions you may have through the agenda, e-mail, or phone calls. Classroom teachers have established additional methods of communicating with parents/guardians, such as Class Dojo, Fresh Grade and Remind. Teachers will communicate their selected strategies through notes sent home.

UNDERSTANDING REPORTING (Grades 1 – 9)

WHAT ARE THE ACHIEVEMENT INDICATORS?

Achievement Indicators describe the level to which your child is achieving in each of the categories on the report card.

If your child receives an M for MEETING, he or she has achieved the grade-level outcome to an ACCEPTABLE standard. If your child receives an E for EXCELLING, this demonstrates a DEEPER LEVEL of mastery within the grade-level outcome.

It is important to note that not all specific learner outcomes can be evaluated at the excelling level. Some outcomes may only reflect knowledge or skill that is either met or not met.

E	M	A	B
<p>Excelling in grade level outcomes. Student evidence of learning may be: In depth, perceptive, insightful, thorough, independent. Overall achievement at this level means the student can be confident of being prepared and able to take on new challenges in subsequent grades/courses.</p>	<p>Meeting grade level outcomes. Student evidence of learning may be: accurate, thoughtful, logical, complete, independent. Overall achievement at this level means a student can be confident of being prepared for work in subsequent grades/courses.</p>	<p>Approaching grade level outcomes. Student evidence of learning may be: partially accurate, basic, simplistic, incomplete, in progress. Additional supports may be necessary to further learning in this area.</p>	<p>Beginning grade level outcomes. Student evidence of learning may be: inaccurate, vague, undeveloped, minimal, limited. Additional planning and instructional supports will be necessary for further learning in this area.</p>

WHAT ABOUT OTHER PROGRAMMING INDICATORS?

Teachers, based on the needs of a student, may need to add additional information about the type of programming that affects the way your child’s achievement is recorded. Your child’s teacher may still reflect a level of achievement next to the outcomes on the report card, but they may be based on adaptations or in the case of some students, the level of achievement and growth may be reflected in an Individual Support Plan (ISP). Parents should always be aware prior to the report card if these indicators are used.

ELL (English Language Learner)	Adapted	Modified
The student's language proficiency level impacts the evaluation of achievement	Student is working on provincial curriculum with adjustments made to instruction	Student is working on programming significantly different than provincial curriculum. The student’s Individual Support Plan (ISP) will reflect more specific achievement towards goals.

WHAT ABOUT EFFORT OR BEHAVIOUR?

The Learner Attributes allow you to see how your child is developing the learning skills and abilities needed to succeed in their own learning as part of the classroom community. These Learner Attributes focus on participation, cooperation, quality work, and respect for self and others. Teachers use observations to identify how often these attributes are demonstrated using the scale below:

C - Consistently	U - Usually	S - Sometimes	R - Rarely
------------------	-------------	---------------	------------

HOW WILL PROVINCIAL ACHIEVEMENT TESTS BE REPORTED?

Provincial Achievement Tests (grade 6 and 9) will still be reported as a single percentage and included for parent information as it becomes available.

UNDERSTANDING REPORTING (Grades 10 - 12)

Our high schools will continue to report in percentages for a final course grade as that is the requirement for entry into post-secondary (college and university); however, it should be noted that post secondary institutions rarely grade using percentages and generally utilize a 4 point scale or letters connected to a 4 point scale.
