Crestwood STEM School

Provincial Achievement Test Summary Report
November 2025

Division Comments:

Our data analysis includes the 2023/2024 and 2024/2025 Provincial Achievement Test results. The school's 2025 results are compared to the school's previous three-year average.

It is important to note a few key items:

- In 2024/25, Grade 6 Science, French Immersion Language Arts and Literature (FILAL), and Français Langue Première et Littérature (FLPL) provincial achievement tests were not administered.
- In 2024/2025, schools piloting the new Grade 6 Social Studies curriculum were not required to administer the provincial achievement tests in May and June 2025.
- The 2023/24 Provincial Achievement Test results do not include students who participated in the optionally implemented/piloted curriculum and were excused from writing the Grade 6 PATs in those subject areas.
- 2022/2023 and earlier reflect the 2007 Program of Studies. 2024/2025 is a new test that reflects the 2023 curriculum. Discretion must be used when comparing results over time. Standards for the new test were set in 2025.
- Participation in the Provincial Achievement Tests was impacted by the fires in 2022/23 and 2023/24. Caution should be used when interpreting trends over time for the province and those school authorities affected by these events.

School Comments:

The 2025 Provincial Achievement Test results reflect the first year of implementation of the new curriculum and assessment standards. When interpreting these results, caution is advised due to changes in test design and participation factors.

English Language Arts 6:

Crestwood's results are below both provincial and division averages at the acceptable standard (50.8%) and excellence (5.1%). This indicates a need for targeted literacy interventions, particularly in reading comprehension and written expression. Strategies will include small-group instruction, increase formative assessment, and enhanced home-school literacy partnerships.

Mathematics 6:

Performance in mathematics is significantly below provincial and division averages, with 32.2% of students meeting the acceptable standard and 1.7% achieving excellence. This highlights a critical area for improvement. The school will prioritize numeracy development through differentiated instruction, use of manipulatives, and integration of problem-solving strategies across subjects.

Science and Social Studies:

Due to curriculum changes and pilot implementation, Crestwood did not administer the Grade 6 Science

and Social Studies PATs in 2025. Instructional focus will continue to align with the new curriculum expectations, ensuring readiness for future assessments.

Next Steps:

Crestwood STEM School is committed to improving foundational skills in literacy and numeracy while maintaining high expectations for all learners. Professional development for staff, targeted interventions for students, and ongoing monitoring of progress will guide our improvement efforts.
